Biker Zone Showcase Website
Technologies Used: Daisy UI, HTML, CSS, Tailwind, JavaScript
Description:
Designed and developed a responsive showcase website for a motorcycle business, focusing on product promotion and user engagement. Implemented a modern, clean UI using Daisy UI with Tailwind CSS, featuring sections like latest news, client testimonials, and a FAQ section. This project highlights my ability to build visually appealing and functional websites that enhance brand credibility and user trust. The site is optimized for all devices and ensures a smooth browsing experience.
